

MARSDEN

M-999 Patient Transfer Scale

- Queens Award for Enterprise Winner for Innovation
- Class III and MDD Approved
- Accurate from 500g
- Revolutionary weighing device
- Capture a patient weight during lateral transfer
- To be used as part of an existing process
- Ideal for weighing immobile patients
- Quick and easy to use

Marsden M-999: Patient Transfer Scale

- Queens Award for Enterprise Winner for Innovation
- Class III and MDD Approved
- Accurate from 500g
- Invented by an Emergency Care nurse, determined to find easier ways to weigh patients
- Obtain a patient weight whilst carrying out a lateral transfer
- Auto power-off function helps to save battery power
- Use the Patient Transfer Scale instead of your traditional PAT slide
- Initially tested in over 30 hospitals
- Simple and easy to use
- The final design was influenced from healthcare professionals
- Now used by over 70% of NHS trusts
- Hold function to enable accurate and easy weighing
- Covered by the Marsden 8 year warranty

Why chose the PTS?

The M-999 was invented by a RGN named Gillian Taylor an ED nurse with over 20 years experience. She needed a weight to gain an accurate weight for her patients.

It is imperative to gain accurate weights for immobile patients, whether that be for nutritional scoring, monitoring/diagnosis and when weight dependent medications are being administered.

How to use the PTS?

The M-999 was designed by feedback from over 30 NHS trusts, which means that this Patient Transfer Scale is simple and easy to use, whilst still gaining an accurate weight.

The PTS is now used in over 70% of NHS Trusts in the UK. Using the Patient Transfer Scale takes minutes to use and completely eliminates the need to 'guesstimate' weights.

Queens Award Winner

We are proud to announce that the Patient Transfer Scale has won the Queens Award For Enterprise in the Innovation category for 2021.

The Queens Award for Enterprise are the most prestigious business award in the country. Marsden and the Patient Transfer Scale has been recognised for its excellence in innovation.

Capacity:	250kg	Power Supply:	Mains/Rechargeable
Graduations:	500g	Battery Life:	50 hours of continuous use
Functions:	Hold, Tare, Portable	Approvals:	Class III and MDD Approved
Dimensions:	1800mm x 700mm x 30mm	Optional Extras:	Carry Case
Weight:	11kg	Warranty Period:	8 Years
